

Moradabad Special Economic Zone (SEZ)- a magnet for industrial development

Moradabad SEZ, originally developed as a Handicraft SEZ, is now a multi-sector SEZ with prospects to set up export oriented industries like agro based industries, chemicals, pharmaceuticals, textiles, clothing, footwear, engineering, auto components, sports goods etc. Union Budget 2020-21 has also encouraged many of these sectors with a focus on Atmanirbhar Bharat. Spread over 435 acres, developed by UPSIDA, close to major transport hubs i.e 100 kms from NCR and 150kms from the Eastern Dedicated Freight Corridor and Delhi, competitive utility and labour costs, the zone is an ideal hub for manufacturing and service industries. The SEZ scheme works on a single window mechanism with zero rated supply of goods and services, facility for duty free imports, automatic 100% FDI in most sectors and a deemed port. Moradabad SEZ is a secure, bonded zone with state of the art infrastructure, uninterrupted power supply expeditious clearances and online application for allotment of land.
